

Excellence in Education goes hand in hand with lived Social Responsibility

We believe that social responsibility, integrity and building trusting relationships are essential prerequisites for excellence in education. Our students will not only strive for the best in their learning, but will also learn how to take responsibility for themselves and for others and actively help people in need. In the pursuit of this goal, we are creating the LLIS Foundation for Humanity.

We believe
that every child
is unique and
creative

We welcome international and local students from 3 to 11 years old.
Our Secondary School opens in September 2012

Preparation for the International Baccalaureate

The LLIS academic programme leads to the International Baccalaureate (IB) and the IGCSE qualifications. In the Kindergarten and Primary sections we follow the International Primary Curriculum (IPC) emphasizing a holistic approach to education in which children are thoroughly engaged in their own learning. The IPC is a curriculum that is being used in over 1,000 schools in 65 countries around the world. It perfectly prepares for the Middle Years and Diploma programmes of the IB in the Secondary school.

Caring Environment

At LLIS we provide a secure and stimulating environment. We promote open-mindedness, understanding and compassion for others. We achieve success through teamwork as well as individual endeavours. LLIS has an inspiring and motivating school ethos where curiosity and creativity flourish. We share and celebrate our cultural diversity in a thoroughly international learning environment.

An Individual Education

We aim to develop the strengths and abilities of each child. This is possible because of a professional and experienced teaching staff, small class sizes, and a comprehensive curriculum complemented by a wide ranging extra-curricular and physical education programme. The school day runs from 8.00 to 17.00 five days a week. Additional care is possible until 18.00 on request.

School sections offered in 2011

- Kindergarten (children from 3-5 years of age)
- Primary School (children from 5-11)
- Secondary School from 2012

The Crèche (children from 3 months) is provided by Cap Canaille in the same building.

LLIS caters for both International and Local Students

In order to accommodate both international and local students, LLIS offers French at the same level as local state schools.

The co-education of international and local students in the same school has a very positive impact on the integration of international students into the local community and fosters friendships between families.

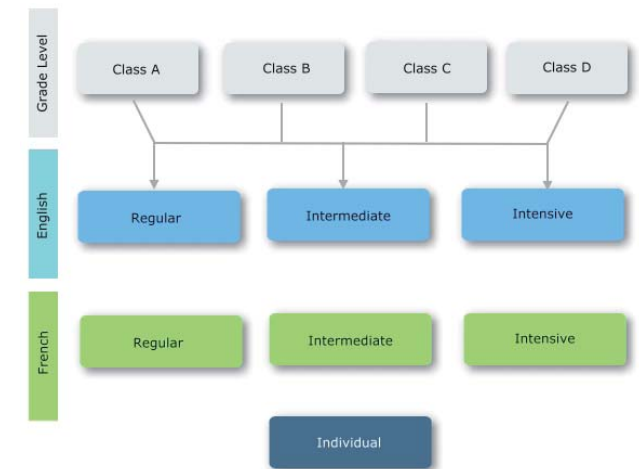

The individual approach of teaching the language at different levels supports this integration.

Special Language Programmes

English is our general language of instruction.

LLIS has a special structure of teaching languages. Our language programmes are designed to support students with different levels of English and French. Students may start on the Beginners Intensive Level then move to the Intermediate Level and later on to the Native Speaker Level (Regular). In addition German will be offered from 2012. All students will have the opportunity to become fluent in these languages. Please ask our LLIS team for further details.

We believe that every child is unique and creative
